

A few years ago, I was going my own way separate from God and I didn't really care anymore. I was bored. But a friend of mine introduced me to Air1 and I fell in love! This station has really helped me come closer to God. I like the varieties of music, all of the other Christian stations play just the "pop" music, and I'm really sick of it. Air1 reaches all ages not just adult. I don't know any other station that shows me how awesome God is. I live in Collegdale, TN and air1 only comes in in Chattanooga, I can only get a little bit of it, I don't want you to get rid of air1, I want you to spread it!

I don't want to say that getting rid of this station will hurt my relationship with god, but these songs let me express myself in music and words that I normally couldn't. I can feel God. So please, don't get rid of air1, spread it!
